RevoluPAY® e-Wallet Linked Prepaid Visa Card Launch

The company has been advised that the software incorporation into the RevoluPAY app of the e-Wallet linked proprietary physical Visa Card has been completed. Live transaction testing commenced on the 24th Sept 2019 and, will continue for several days prior to the planned definitive launch at the end of September. The RevoluPAY® physical international visa card hopes to facilitate worldwide utilization of RevoluPAY, permitting withdrawals from any ATM that accepts Visa worldwide, allied to POS payment at any location that accepts Visa. This functionality will give RevoluPAY® app users an added layer of global financial autonomy, in those locations where NFC enabled POS devices and ATMs, for which the RevoluPAY app is already enabled, are not yet operational or, in jurisdictions where RevoluPAY does not yet possess a local cash-out partner. The physical RevoluPAY branded Visa Cards will therefore be shipped to users worldwide in early October 2019.

Top 40 World Bank Reschedules Compliance Visit

Shareholders were advised on **July 26th 2019** that the Company had received a written confirmation from the said bank concerning a final compliance visit to RevoluPAY headquarters that was to ostensibly take place during the final week of September. The company has recently received a written communication from the international bank advising that the compliance visit has now been rescheduled until the third week of October 2019, with the newly rescheduled visit to occur between the 14th and 18th of

October. On [June 29th, 2018](#) shareholders were informed that RevoluPAY S.L. had signed an NDA with Top 40 World Banking Institution for remittance disbursements. The said bank operates extensively in 16 Central/South American Countries and, the Caribbean. After signing the NDA, on the 17th December 2018, an executive from the International Bank subsequently made a personal visit to the RevoluPAY headquarters in Barcelona. Should the final compliance visit result positive, the outcome would engender the final signing of the bilateral agreement between the International Bank and, RevoluPAY S.L., for the immediate commencement of Remittance Flows through the RevoluPAY App to all of the aforementioned 16 countries.

Top 40 World Bank System Integration Reaching Conclusion

In May 2019, RevoluPAY IT Professionals began preemptively working conjointly with the technical specifications provided by the Bank to complete the integration of the Top 40 World Banking Institution's systems into RevoluPAY, in advance. These advance preparations have resulted in RevoluPAY now being in the final stages of homologation for the direct financial link-up to the Banks systems, in anticipation of a favorable compliance visit and, signing of the final definitive agreement, of which CUV management has had a copy for many months. The goal of the proactive 5 months of preparations has been to procure an immediate commencement of operations should the final accord be signed with the Top 40 World Bank.
